

## **Courtney Tripp**

### **For Meritorious Service**

Courtney values her friends and family and will go above and beyond to be of service. She is a devoted mom and has shared her love of bowling with her children. She is committed to her bowling family and is the first person that many go to with questions and requests for help.

She started bowling early and continued to bowl as a youth. She participated in high school bowling until graduation, winning several scholarships.

Moving to Virginia in 1999, she started working for AMF in 2001. Serving as Director for several years when the GFUSBCA was established, she became the Association Manager in 2014. She has worked as a League Secretary for Wednesday Frenzy, and Committee Chair and Member on multiple GFUSBCA committees. Courtney is a passionate advocate for special needs and youth bowling.

She works tirelessly as an organizer and volunteer for every tournament. Even as she has struggled with medical issues, she is always present with a personal greeting and a smile for all, not letting anything get in the way of her commitments. It is her devotion to the bowling community that helped us return to normalcy after the Covid shutdown.

Courtney represents our association at the State level, becoming a Director of the Virginia State USBC in 2021. She volunteers herself wherever there is need for service that grows our community and supports our membership.
